

AMENDMENTS TO THE SPECIFICATION

Please amend paragraph [0151] of the published application as follows:

[0151] As shown in FIGS. 3 and 5, a more shallow recess 25d is disposed at the receiving recess 25c formed in the upper surface of the lower plate 25. The recess 25d is wide, and it extends in the back and forth direction. As shown in FIG. 3, a blowoff passage (blowoff aperture) 25a extending from the recess 25d to the lower surface is formed in a central part in the left and right direction of the lower plate 25. As shown in FIG. 7, the blowoff passage 25a has a slit-like configuration, and it extends in the back and forth direction.
